The Author

ALL ABOUT THE AUTHOR AND THIS DICTIONARY

This bilingual dictionary is a rare product of a common man whose natural linguistic curiosity has been complemented by an assiduous dedication to a labor of love where many a scholar of less tenacity has failed. This remarkable work heretofore unequaled in the field of Pilipino lexicography, at least in terms of breadth and depth, is definitely a distinct contribution to communication arts. The first of its kind, its intrinsic value as general reference to students, teachers and the mass of public users truly immeasurable.

—VEDASTO G. SUAREZ
Assistant Secretary
Dept. of Education and Culture

Mr. Santos, with the enthusiasm and energy of a medieval monk, worked incessantly, in sickness and in health, and over the years he accumulated such a wealth of materials that astounded me. When he showed me the thousands of pages of typewritten entries, I could hardly believe my eyes.

I have gone over the page proofs of this important work of Mr. Santos and, after comparison with other dictionaries in Pilipino, I came to realize that it is a significant, and towering contribution to Philippine lexicography.
